FURRY ENCOUNTERS A FUN-FILLED DAY AT CAUSES FOR ANIMALS

It is never too early to learn about kindness to animals. On 7 September 2018, members of the Pet Lovers Junior Club (PLJC) got together at the Causes for Animals Singapore (CAS) Shelter for the much anticipated Pet Guardian Class. Back by popular demand, the fun-filled event is organised to help children from seven years old about proper animal care and responsible pet ownership.

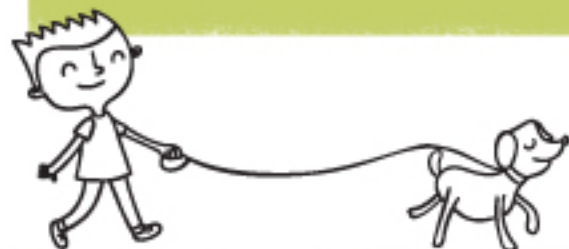

The two hour event brought together 18 children, most of whom are pet owners. Some of the children bought their old tees for the DIY dog toys segment. They have enjoyed learning and making the dog toys for their dogs at home.

Another favourite is the tour of CAS shelter where they learn on adoption and works of CAS. The class was led by CAS resource persons Christine Bernadette and Quek Guan Ling. On top of a tour around the shelter, the children enjoyed enlightening animal stories and close encounters with the furry residents. Fortunately, the weather was forgiving that day as it rained only after the walk ended.

Club members who attended the activity earned themselves an Animal Ranger Badge. What a treat to end the day!
